Precision Plumbing Products- Products include pressure drop activated primers and distribution units, electronic priming systems, water and special application fluid hammer arrestors, laundry supply boxes and thermostatic mixing valves. These items are designed for commercial, industrial, institutional and residential projects.

IPEX Enfield / Labline / PlenumLine (PVDF) – IPEX acid waste systems deliver the proven corrosion resistance of our specially formulated polypropylene or PVDF, and feature our state-of-the-art mechanical joining system using no-heat Elastolive, for high-integrity joints in seconds. Enfield electrofusion fittings are molded with an integral resistance wire in the socket, with jointing completed by energizing the resistance wire via a microprocessor controlled Enfusion Control Unit.

IPEX Enpure - Enpure™ high-purity polypropylene piping systems eliminate the potential for contamination during the conveyance of ultra-pure liquids.

Schott North America Inc. - Kimax Borosilicate Glass Drain and Vent Systems

Acid neutralizing systems – Specializing in acidic waste neutralization, Traditional tanks or injection neutralization systems.

Kusel - Kusel stainless steel floor drains, trench drains and cleanouts.

Innerlynx - Innerlynx Modular Mechanical Seals are available in a variety of styles and sizes to suit a large range of pipe systems and penetration sealing applications.

Wessel Tanks

Wessel manufacturers a complete line of ASME and non ASME Expansion tanks for hydronic heating systems and potable water systems. They also offer air separators and air eliminators.
